

THE PURATONE CORPORATION ENVIRONMENTAL POLICY STATEMENT

The Puratone Corporation subscribes to the principles of Sustainable Agriculture which integrates environmental stewardship, farm profitability and prosperous farming communities. By following these principles Puratone is ensuring that over the long term we are satisfying human food needs, preserving or enhancing the environmental resource base upon which the agricultural economy depends, increasing efficiency of renewable and on farm resources while sustaining economic viability.

In line with its overall goal of sustainability, The Puratone Corporation will dedicate the human, technical and financial resources to integrate environmental management with financial and operational management. This commitment to an environmental management system will be implemented through a management structure and process that is ISO-14001 conformable, audited and externally certified.

Specifically, The Puratone Corporation will:

- 1) Comply with all environmental legislation and regulation and other requirements to which the organization subscribes which relates to its environmental aspects.
- 2) Work to continuously improve its facilities and management practices with respect to pollution prevention through periodic review of environmental objectives and targets.
- 3) Address honestly and respectfully the concerns of our workers, neighbours and the wider community.
- 4) Communicate the environmental policy to all persons working for or on behalf of the organization, and to the communities in which we operate through our website at www.puratone.com

It is the responsibility of every employee of Puratone and controlled subsidiaries to comply with the statements and declarations contained within this policy.
