

The Puratone Corporation is a progressive leader in Canada's Animal Nutrition, Hog and Poultry Industry. Our company is committed to providing a rewarding work experience, where self-motivated individuals flourish and creative input from all members of our team is valued.

PLANT MANAGER - NIVERVILLE

Reporting to the Director of Feed Manufacturing, the Plant Manager position is located at our feed manufacturing plant in Niverville, MB.

Responsibilities

- Oversee all productions related activities
- Review productions data regularly and produce productions performance reports.
- Maintain a current bulk and bag ingredient inventory – may be involved in ordering of the bulk and bag ingredients
- Assist Quality Control in handling feed quality complaints, keeping records and acting on the complaint
- Working closely with Director, Feed Production, Nutritionists and Maintenance Supervisor to identify production bottlenecks (equipment, formulation, training) and develop plans to overcome
- Assist Quality Control in ensuring G.M.P. procedures are developed and followed. Provide assistance and staff direction on steps necessary to ensure HACCP certification is achieved/maintained.
- Work together with Quality Control to ensure proper feed sequencing and feed safety in mill and on trucks.
- Ensure employees are in compliance with Health and Safety regulations.
- Provide positive leadership and direction to a highly productive team of employees

Qualifications

- Ag Diploma or Degree
- Knowledge of Feed Production Software
- Be detail oriented
- Strong written and verbal communication skills
- Excellent leadership skills

Interested individuals are asked to forward a resume or letter of interest by Friday, August 6, 2010 to:
